TOBIAS PEKELHARING – Director

Tobias is a widely interested director who loves to travel the world. Started out as an airline pilot, became a cinematographer and now combines the best of both worlds. He is involved in everything from the script to the closing credits and dares to say no when things don't feel right. To compliment the beautiful cinematic aesthetic Tobias creates in his work, he loves to be very heavily involved in the music and working with the actors to achieve authentic moments for natural performances.
