

**HANNAH DOBBERTIN** – Director

When Hannah was little, she wanted to be a paleontologist. She wanted to dig up stories and then piece them back together. Today, the research and reassembling behind filmmaking inspire her just as much.

During an exchange year in Santa Fe, New Mexico, she had the opportunity to take film classes and help as an intern in the Film Department of the Santa Fe Community College. Back in Switzerland, her Matura film "Seiten des Lebens" (Pages of Life) then won the Rotary Prize 2018 in Wohlen AG, was awarded an "Outstanding" at the Schweizer Jugend Forscht Tage 2019 and a silver medal at the Genius Olympiad New York 2019.

Last year she worked as a production intern at Shining Film AG in Zurich and was nominated in March 2021 at the ADC (Art Director`s Club) Switzerland for the Young Creatives Award.

She is currently freelancing on several short films and commissioned films.
